

Mrs. G. W. Grady
Whittier,
Cal.

R. W. & Boy 75

CM

Monday A. M. Mar. 18-72.

My dear Edie:-

I suppose you for this open in a hurry to see what was inside! But there is no news. so I'll settle that at once:

I am sitting out in the shade writing while Margaret is asleep in the go-cart.

Mr Shum had his "sub" take the work to-day & he is at home & has a man to help him plant potatoes and do a number of much needed stunts. Fred did such a fine days work Saturday and yours truly "raked up" trash all around yard & burned it. Hope Fred can accomplish a lot during Easter vacation as it needs it so, around here.

Paul is washing and hens are cackling and sounds as if some thing was doing on the Shum ranch today.

CM

So glad you got home with no serious bad luck, after your poor start. Next time we will have our clock ahead of time. Poor little Helen. she was looking back + throwing kisses + waving to us and turned around suddenly + bumped the tin. I hope it ~~the lamp~~ ^{the lamp} ~~some~~ felt better. You must have been hungry when you reached home. Sorry I did not make you some sandwiches to carry with you. But I am no good for anything it seems. It never occurred to me to give you a dress of mine to put on + you wore your good one all the time. I feel like scolding you for not asking for one or helping yourself. Always do it when here + feel at home + free to ask for anything you want. So sorry I was so absent-minded as not to think of it.

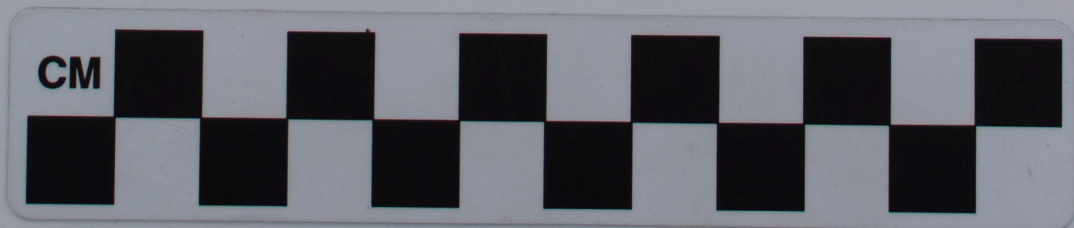

I made baby's pink bonnet + finished the rompers + tights + all and did a few smaller things that day. Next day made my blue

bonnet and made over a petticoat, and did a lot of things during work. I have felt so different and have had so much more comfort the last two weeks - or since the "settling process" began. And have had more sleep than in months. I went to bed soon after eight last night and got up at 6:15 but just felt like sleeping on. Seems as if I cannot get caught up. My work spells were not quite so bad last week + I was like a different girl - so good all day - so everything made it easier for me.

No there was nothing you could do for me in town - I guess I've plenty of old napkins + if everything is o.k. I'll let some one order some later. I would like to have a pair of overalls for Margaret now. She found out one day that she could get down the steps - all around house - and now she goes up + down + all the way round house

and out to wind-mill just as hard as she can go. She is beginning to stand alone now and walk around wall etc. but she can creep so fast that she doesn't want to take time to walk - too slow for her.

Have not written Mrs. Talory but will today to tell her how I am. I am not afraid but what she will have plenty of time to get here and I have every thing ready for an emergency. She intends to come out anyway about middle of week to see how prospects are. Have not heard from Ida - she said when here that she would be out about middle of month to stay few days but guess she is a good deal worried she will run into a job. Now, don't worry! If any thing goes very much wrong Mr S. will phone you - and if o.k. write you. It would be a comfort to me if you were near and could have you here (just to look at) but I know your own family needs you & I will not be selfish. Best wishes to daddy. They must have struggled to see you. Kiss babies all for me - Lovingly "Pa".

My dear Edie:-

I suppose you for this open in a hurry to see what was inside! But there is no news. so I'll settle that at once: I am sitting out in the shade writing while Margaret is asleep in the go-cart. Mr Sherwin had his "sub" take the work to-day & he is at home & has a man to help him plant potatoes and do a number of much needed stunts. Fred did such a fine days work Saturday and yours truly "raked up" trash all around yard & burned it. Hope Fred can accomplish a lot during Easter vacation as it needs it so, around here. Pearl is washing and hens are cackling and sounds as if some thing was doing on the Sherwin ranch today.
